

SPREADING THE COST

Leasing and Hire Purchase

A MORE MODERN WAY TO PAY

Outright ownership doesn't suit everyone's budgetary demands. It is very common in today's automotive market to lease or acquire a car through hire purchase. Why shouldn't that apply to your warewashing equipment? Winterhalter can work with 3rd party providers that offer leasing finance to suit your requirements.

If you think you will eventually want to own your machine, then Winterhalter can work with 3rd party providers who can offer you HP finance for the machine or package you want. These unique packages offer payment terms to suit you, whilst giving you access to premium glass, dish and utensil washers that deliver hygienically clean results.

HOW LEASING / HP WORKS...

Zero Outlay:

No upfront cost and zero outlay.

Guaranteed Quality:

From a Winterhalter glass or dishwasher

Monthly Payments:

Payment terms to be agreed with 3rd party finance provider.

ADVANTAGES OF LEASING OR HIRE PURCHASE

PROFITABILITY

With no upfront costs to pay, leasing frees up capital for you to invest in other areas of your business. You can acquire essential but costly equipment without the associated full costs. It is also possible to claim the payment associated with the leased equipment as part of the business expense which offers a tax advantage.

CASH FLOW

Leasing allows you to acquire equipment quickly and easily without necessarily spending a lot of money. A lease contract defines clear, monthly expenditure which does not change. This allows you to forecast your expenses and budget accordingly.

OPTIONS

We can package optional extras into the cost of leasing or hire purchase. If you want an ultra-efficient machine, with additional energy saving features, that will help reduce your running costs, no problem. We can tailor a machine to meet your precise on-site requirements and a price to match.

FIRST-CLASS QUALITY

Rely on real brand quality: our leasing or hire purchase options are part of our total warewashing solution, which combined together can guarantee top-quality wash results. It can also be integrated with our optional extras including the Energy and Excellence-I machines.

OWNERSHIP

If you decide to pursue the hire purchase option, you'll own the machine after paying the final instalment, which can make it more favourable than leasing.

ALL YOU NEED TO GET STARTED....

Contact us for a quote

We will tailor a payment schedule to suit your needs.

Sign your contract

Once the contract with the finance company is signed, we can arrange delivery and installation.

Start washing!

With Winterhalter quality delivering flawless results.
