

NO INVESTMENT, ZERO RISK

PAY PER WASH

 **PAY PER
WASH**
A NEXT LEVEL SOLUTION

FULLY FLEXIBLE. FULLY INCLUSIVE.

We believe that high-quality shouldn't be inaccessible. We know that for a lot of independent businesses and seasonal venues, you want to provide the best for your customer, but the best isn't always affordable. Which is why we've made this unique package. It rivals anything else on the market, and it's a credible alternative to financing and renting that comes with no strings attached.

HOW PAY PER WASH WORKS...

Zero Outlay:

No upfront cost or capital expenditure. You only pay when you wash.

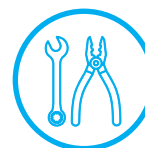

Guaranteed Quality:

From a Winterhalter glass or dishwasher

Chemicals Included:

The detergent, rinse aid and salt are part of the package

Service & Repair Included:

There are no additional costs for breakdowns or repairs*

*excludes operator error

ADVANTAGES OF PAY PER WASH

PROFITABILITY

With no up-front costs, you're able to use your capital in other areas of the business, freeing up valuable finance for staff or infrastructure. The flexibility of PPW means that the cost to you, is proportionate to the number of customers. If your site is quieter than usual, your warewashing will cost you less.

CASH FLOW

It is simpler to manage your cash flow because you won't experience any unexpected costs. A pre-defined cost per wash cycle is fully inclusive of chemicals and service; all from one supplier. If your usage changes we can amend the price you pay.

NO FIXED COSTS

Pay for washing only when you are actually doing business: With PAY PER WASH, billing is based on actual use – with a fixed price per wash cycle. These expenses are immediately tax-deductible as operating costs.

FULLY FLEXIBLE

Stay independent and flexible: The PAY PER WASH contract has no minimum period and can be terminated with no additional costs. This means no long-term obligations, just full flexibility!

OPTIONS

We can package optional extras into your PPW price. If you want an ultra-efficient machine, with additional energy saving features, that will help reduce your running costs, no problem. We can tailor a machine to meet your precise on-site requirements and a PPW price to match.

FIRST-CLASS QUALITY

Rely on real brand quality: PAY PER WASH is part of our total warewashing solution, which combined together can guarantee top-quality wash results. It can also be integrated with our optional extras including the Energy and Excellence-I machines.

ALL YOU NEED TO GET STARTED....

Pay by Card

Use a credit card to purchase the washes you require

Start washing!

With Winterhalter quality delivering flawless results

We keep you updated!

When your credits are running low, the machine will let you know

THAT'S PAY PER WASH.

**NO
CONTRACTS**

**NO MINIMUM LENGTH
OF OWNERSHIP**

**NO LONG-TERM
OBLIGATIONS**

Winterhalter brings commercial warewashing to the next level: the first warewasher you only pay for when you actually use it. That means perfect wash results for everyone – regardless of the available budget, and with maximum flexibility.

PAY PER WASH closes the gap between high cleanliness and hygiene standards and the associated acquisition costs. With the new payment model, you receive Winterhalter brand quality as an all-round carefree package: in combination with the UC and PT series under counter and pass-through warewashers and perfectly matching system components.
