## ADVANTAGES OF RENTAL

### PROFITABILITY

With no upfront costs to pay, rental frees up capital for you to invest in other areas of your business. You can acquire essential but costly equipment without the associated full costs. In some cases, rental can actually save money and decrease long-term expense.

### CASH FLOW

Rental allows you to acquire equipment quickly and easily without necessarily spending a lot of money. A rental contract defines clear, monthly expenditure which does not change. This allows you to forecast your expenses and budget accordingly. Remember, a Winterhalter rental includes chemicals and service so you shouldn't expect any unforeseen charges.

### OPTIONS

We can package optional extras into your rental price. If you want an ultra-efficient machine, with additional energy saving features, that will help reduce your running costs, no problem. We can tailor a machine to meet your precise on-site requirements and a rental price to match.

### FIRST-CLASS QUALITY

Rely on real brand quality: our rental options are part of our total warewashing solution, which combined together can guarantee top-quality wash results. It can also be integrated with our optional extras including the Energy and Excellence-I machines.

### OWNERSHIP

If you decide you want to purchase the machine once the rental period has expired, Winterhalter will calculate an aggregate payment taking into account your rental outlay.
