

## Technical data sheet

High performance neutral rinse aid

# B 100 N

### Concentrated high performance neutral rinse aid

#### Area of application:

- Suitable for professional glass washing machines, front loading, rack pass through, rack conveyor dishwashing machines in restaurants, hotels, and commercial catering kitchens as well as bakeries and butcher's shops
- Suitable for drinking glasses and other tableware made of glass, porcelain, plastic, stainless steel and aluminium, as well as cutlery and equipment
- Especially suitable for use with soft water

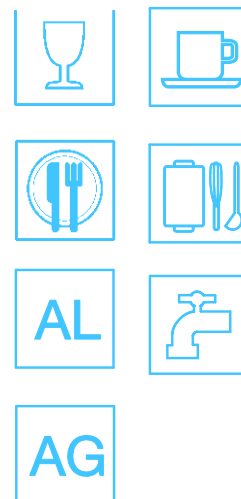

For optimum washing results we recommend using this product in Winterhalter dishwashers with Winterhalter detergent and appropriate Winterhalter water treatment. To achieve spotless results when washing glasses, demineralising equipment should also be fitted.

#### Dosage:

0.1 to 0.4 ml/l via automatic dosing equipment, depending on the type of the dishes and the water quality.

Having the rinse aid dosing set on-site by Winterhalter customer service assures perfect rinse aid results.

For best results you should choose Winterhalter dishwashers with integral automatic dosing equipment.

#### Product advantage:

- Universal, highly concentrated
- Excellent dish wetting
- Very good draining
- Brilliant shine
- Assures beer head stability

#### Ingredients:

Sodium cumolsulfonate, non-ionic tensides, preservatives

The balanced composition of ingredients ensures optimal washing capacity and prevents undesirable foam formation in the machine, is gentle on delicate glasses and decorations.

## Technical data sheet

High performance neutral rinse aid

# B 100 N

### Delivery sizes:

5 l	PE drum
10 l	PE drum

### Technical Data:

Colour:	Blue colour
Odour:	product-specific
pH value:	5.5 (concentrated)
Viscosity:	< 10 (at 20° C in mPa s)
shelf life:	24 months
storage conditions:	cool, dark, upright, frost-free, max. 30° C

### Disposal of empty packaging:

- Completely emptied packaging is recyclable and can be disposed of by the end-user through the DSD.

### Safety notes:

- This product is not dangerous and does not need labelling according to preparation directive 99/45/EG. Not a hazardous material per GGVS.
- Observe remarks on the product label and the safety data sheet ([www.winterhalter.com.my](http://www.winterhalter.com.my)).

### Important:

- This product is intended for general public. For commercial use only!
- Rinse Aid B 100 N can be used in connection with all customary detergents for commercial dish and glass washing.
- Storage and transport permissible only in original packaging in upright position. Do not expose to direct sunlight. Protect from freezing.
- Drum sprout and anti-spilling inserts for containers are available to make the filling of the installed rinse aid containers easier. To avoid confusion, Rinse Aid B 100 N may only be filled in containers marked Rinse Aid.
- Never mix with other products and do not refill in other containers, bottles, etc.
- Containers, pipes and dosing equipment should be rinsed with fresh water before changing products.
- Colour variations of the product are caused by raw materials and storage and do not affect quality.
- To ensure reliability and long life for your dishwasher all filters should be cleaned at the end of operation after the self-cleaning programme has ended. Leave the machine open slightly so the interior can dry in and order to build up corrosion protection.
- For cleaning and maintaining the stainless steel coverings of the machine we recommend Winterhalter C 112 Manual Dishwashing Concentrate as well as Winterhalter C 161 Stainless Steel Polish.
- You will find this product's safety sheet, technical data sheet, on our homepage at [www.winterhalter.com.my](http://www.winterhalter.com.my)
