Important:

- This product is not intended for the general public. For commercial use only!
- Storage and transport permissible only in original packaging in upright position. Do not expose to direct sunlight. Protect from freezing.
- Reseal drum immediately after removing product.
- Never mix with other products, and do not transfer to other containers!
- The product should only be used in dishwashers in conjunction with an alkaline detergent. Never use the tabs in stainless steel containers or to clean cutlery without adding an alkaline detergent.
- Colour variations in the product are caused by raw materials and storage and do not affect quality.
- To ensure reliability and long life for your dishwasher all filters should be cleaned at the end of operations, after the self-cleaning program has ended. Leave the machine open slightly so that the interior can dry and in order to build up corrosion protection.
- You will find this product's safety data sheet, technical data sheet, sample operating instructions and written instructions on our homepage at www.winterhalter.com.my
